## Unlocking the potential of Team leader

*Reliable and fair assessments to validate skills and expertise*

### What is a Team leader?

They are in organisations that have a requirement for first-line management and support for teams and senior managers. Team leaders manage individuals, teams or elements of projects. Offering direction, instruction and guidance to achieve set goals. They are vital to the smooth running of functions across the organisation, to ensure functions are maintained in line with legislation and organisational procedures.

A Team leader will interact with functions across the organisation, including HR, finance, IT, sales and marketing. Their role also includes interaction with stakeholders, customers and suppliers.

Team leaders may work as part of a network in various team settings. They support managers with developing and managing individuals, planning and preparing workloads, delivering operational plans, resolving problems and managing projects.
