End Point Assessments for Community Activator Coach Level 2 - ST0478

Unlocking the Potential of Community Involvement -

Reliable and Fair Assessments to Validate Skills and Expertise

What is a Community Activator Coach?

The Community Activator Coach transforms communities by promoting active lifestyles, delivering engaging activities, and fostering connections, focusing on inclusivity and positive change, especially for inactive, young, and marginalised individuals, collaborating across various sectors to enhance health, safety, and well-being.

As your dedicated End Point Assessment Organisation for the Community Activator Coach standard, we ensure rigorous evaluation of candidates. To meet the standards, candidates must showcase comprehensive understanding of physical activity benefits, behavioural change principles, and effective coaching methods. They must demonstrate adeptness in leveraging customer insights, promoting inclusive activities, and collaborating with diverse community assets. Candidates are evaluated on their ability to support families, manage disruptive behaviours, and encourage regular physical activity. We assess their skills in planning adaptive sessions, utilising social media for outreach, and contributing to community events. Additionally, we evaluate their adherence to ethical conduct, commitment to customer welfare, adaptability, and continuous professional development. Through our robust assessment process, we certify individuals as proficient Community Activator Coaches, ensuring they bring positive transformations to communities.
